

Collaboration at CPKN

The Harvest

What is collaboration?

## Defining the term we love to Use.....

- **Collaboration** is working with others to do a task and to achieve shared goals. In fact, true collaboration is literally a giving of oneself, in the pursuit of a common greater good.
- So much so that the outcomes discovered together, could never be achieved through individual effort.

## Here is what you said yesterday.....

- # 1 Barrier to Collaboration:

**EGO**

- # 2 Barrier to Collaboration

**Tenure**

Here is what is **not** a Barrier

We asked if you thought it was worth doing and you said....

- It's important and I am in.....

## You said.....

- o **You want to subcommittee to:**

- o Build an inventory:

- o Provide tools and share information.

- o Understand the challenges..

## So how do we get by the barriers?

The committee has great data to work with now.....

We have your email and phone numbers.....

We are motivated to make change , you have our commitment to make change.....

So who wants in.....

Final Thoughts or Questions.
